Class Name:

Description of Model(s):

Creator:

Level:  Simple  Low Intermediate  Intermediate  
 High Intermediate  Complex  Super Complex

If this model has been published, where has it appeared?

Do you have permission to teach?  Yes  No  Other, please explain:

Number of periods needed:  One (45 minutes)  Two (1 hour, 45 minutes)  Three (2 hours, 45 minutes)

Normal class limit is 25 students. Is this OK?  Yes  No, please give alternate limit desired:

Students will have 6" and 10" kami and foil, and larger kami and foil will be available for teachers' demonstrations. Please let us know if any other paper or teaching materials will be required. Please be specific:

Special comments or notices, such as "This is a modular and will not be completed in class" or "Students will be given diagrams and the teacher will be available for assistance" or "Model requires a high degree of accuracy":

*Samples of the completed models must be provided prior to the convention so that we may prepare a Model Menu for all classes. Please mail a sample of your model, packaged carefully and securely, to arrive before June 22nd. If you wish to bring your model to convention, it must be delivered on Friday between 1pm and 6:45pm. Your sample should be appealing, but please make certain that it is bigger than 3" and smaller than 8" to fit the space available. Model menu samples need to be picked up by 4pm on Sunday. Any that remain will be considered a contribution to the organization. Remember, if your models are not delivered on time, you will not be eligible for early teaching priority.*

(For office use only)
